Free Digital Collections from Florida Universities

PALMM- Publication of Archival Library & Museum Materials
http://palmm.fcla.edu

About Us

Publication of Archival Library & Museum Materials (PALMM) is a cooperative initiative of the public universities of Florida to provide digital access to important source materials for research and scholarship. PALMM projects may involve a single university or may be collaborative efforts between a university and partners within or outside of the state university system. PALMM projects create high-quality virtual collections relevant to the students, research community and general citizenry of Florida.

The PALMM Collections

Archives Florida
Archives Florida is a searchable and browseable database of finding aids (guides) to personal papers, organizational records, and other special collections held by archives, libraries, museums, historical societies and other agencies in Florida. It is a growing database as new finding aids and contributing organizations are added all the time. Finding aids are searchable collectively, or by individual archives.
View Collection

Aerial photography Florida
Aerial photography Florida is a collection of aerial photographs taken between 1930 and 2000. Literally, a portrait of the State, the collection will be comprised of hundreds of thousands of aerial photographs documenting the land use of Florida over time.
View Collection

Big Cypress National Preserve Collection
Big Cypress National Preserve Collection documents the natural heritage of the Big Cypress National Preserve, part of the U.S. Park Service located in southwest Florida. Photographs show flora and fauna including deer, panther, pines, hardwoods, prairies, mangrove forests, cypress stands and domes.
View Collection

Collections of interest include:

- Florida historical photographs (Koreshan Site, Sanibel Island, and more)

- Historical documents on local areas and environment

- Publications like Florida Historical Quarterly

- Environment and Ecology documents

Digitool
http://digitool.fcla.edu
Cross-search almost all of the PALMM collections, plus additional content.

University of Florida Digital Collections
http://ufdcweb1.uflib.ufl.edu/ufdc/

Collections of interest include:
- Historical newspapers about Florida
- Aerial Photography
- Primary sources for Florida research

Creating Videos with YouTube/Google Search Stories

YouTube Search Stories Channel: http://www.youtube.com/user/SearchStories

Susan's Videos: http://www.youtube.com/user/susan259

      http://youtu.be/jpxOzFnK8wY

      http://youtu.be/AObG51K65LE

      http://youtu.be/84iQMMX_4x8

      http://youtu.be/gbTho0kx300

If you (or your library) do not already have a YouTube account, sign up for one: http://www.youtube.com/create_account?next (If you already have an account with Google, you can log in with that same username and password.)

Google Search Story Creator: http://www.youtube.com/searchstories

- Click the "Create your own" button (bottom left)
- This is the ~~hard~~ creative part. Think of the story or idea you want to convey, then decide how best to search for that in Google.
    - Some ideas: services, programs, books.
- Put each search in a different box and then select what type of search should be run.
    - Once you type the search in, you can then preview what it will look like.
- Click "Next"
- Choose a soundtrack
- Click "Next" again. (Your SearchStory will be created.)
- Preview, edit, and add details to your video.
- Click "Upload."(You may be asked to log in again.)
- Once uploaded, you will be given several ways to share your video.
    - Also, your video will be added to your YouTube account.
    - If there is a lot of traffic on YouTube, it can take a few minutes to process the video, just FYI, be patient!

BONUS:

xtranormal: http://www.xtranormal.com
Sign up for an account or connect through facbook to turn blocks of text into movies

Jing: http://www.jingproject.com/
Use *Jing* to capture anything you see on your computer screen and share it instantly...as an image or short movie.
