Dear Colleagues,
Ms. Tyla Bebon of Technology Services has graciously agreed to provide all of us with a 20 minute training/orientation session on the Kurzweil Reader/Scanner.
I have scheduled the session for this Thursday, April 16 at 2:00pm in the library. I do not expect that we will become expert in the use of this machine and software but I think some background knowledge on its capabilities and some "how to" basic stuff may come in handy and help us to assist students.
Bill

I have been studying the traits and dispositions of the "lower animals" (so called) and contrasting them with the traits and dispositions of man. I find the result humiliating to me. ~Mark Twain, Letters from the Earth, 1907.
