Subject: CCLA Presentation: Rhonda K. Kitchens -- Fast Fake Fabulous
Attachments:  [fastfakefabuloushcc.pptx\(2MB\)](#)

The link is attached and also on:

<http://libguides.scf.edu/fast>

With some supporting material including (not discussed) free or affordable ways to track/record website usage/user behavior

If you do not have AAL's Instant Invite, please review and consider:

http://libguides.scf.edu/instant_invite

If you were intrigued by the concept of ZebraZapps (not on the PPT), see:

Brief point by point overview comparing to Articulate Storyline:

<http://clive-shepherd.blogspot.com/2011/11/storyline-and-zebrazapps-seriously.html>

And a free trial:

<http://www.zebrazapps.com>

This free trial will mean nothing to you (trust me) if you do not review these:

<https://zebrazapps.com/#/support?learn-tour-menu>

They do offer free and practical hands on webinars (good examples of how to do LIVE instruction that includes practice) ...however, review the above first. Again...*trust me* or you may find yourself participating in what I call the Webi-NOT. Or worse...the Webi-Noir.

ENJOY!

Rhonda K. Kitchens, eLearning Librarian
State College of Florida, Manatee-Sarasota
