**Subject:** Anatomy Models

Hello Everyone

We had a discussion in the Collection development meeting yesterday concerning the proper and improper use of the anatomy models. Please do not position or play with the anatomy models. These models are for student use and we do not want to misrepresent to our students that these models are to be played with or misused. They need to be respected and used in a proper manner. If you have any questions about this matter please let me know. My door is always open.

Jill. please forward this to our students.

Thank you  
Peggy
