**Survey Notes:**

The goal of the educational plant survey is to assist the College in meeting its facility needs by developing a master plan for housing the programs and services provided. Educational plant needs are the focus of the survey. To better understand those needs, this section provides a historical background on the development of Edison College and a general understanding of its purpose, mission and goals.

**VISION, VALUES, AND MISSION**

**VISION:** Edison State College will be the catalyst for creating an innovative education system which provides accessible educational pathways that prepare students to be enlightened and productive citizens.

(Vision statement approved by the District Board of Trustees April 27th, 2010)

**VALUES:** We value student success, integrity, intellectual inquiry, and academic rigor.

(Values statement approved by the District Board of Trustees April 27th, 2010)

**MISSION:** The mission of Edison State College is to inspire learning; prepare a diverse population for creative and responsible participation in a global society; and serve as a leader for intellectual, economic, and cultural awareness in the community.

(Mission statement approved by the District Board of Trustees April 27th, 2010)

**STRATEGIC PRIORITIES:** As an open-door regional State College, Edison will:

1. Develop and maintain a learning-centered culture
2. Provide educational pathways for under-prepared students
3. Provide vibrant relevant programs
4. Provide an array of effective student support services
5. Identify and develop short and long-term financial, facility and technology resources of the College
6. Promote, develop and retain a culture that supports professional growth of faculty and staff
7. Develop, maintain and enhance collaborative partnerships
8. Enhance the regional image of Edison State College.

(Strategic Priorities approved by the District Board of Trustees February 22nd, 2011)

**HISTORICAL PERSPECTIVE:** The Florida State Legislature authorized the formation of Edison College in 1961. On August 30th of that year the Governor appointed an Advisory Committee with representatives from Lee, Charlotte, and Collier Counties. The same day, the Lee County Board of Public Instruction passed a resolution establishing the institution of higher education to be known as "Edison Junior College."

The first students entered Edison in the fall of 1962. Classes were first held at the Andrew D. Gwynne Institute in downtown Fort Myers. Four presidents have guided the college in its continuing mission to support the needs of its students. They are Dr. Charles E. Rollins from 1962-1965, Dr. David G. Robinson from 1965-1991, Dr. Kenneth P. Walker 1991-2012 and currently Dr. Jeffery S. Allbritten whom was inaugurated on July 31, 2012.

On July 1, 1968, the Edison Junior College Advisory Committee became the District Board of Trustees. The District was expanded to also serve Glades and Hendry counties, and the Board was increased to nine members, who were appointed by the Governor and confirmed by the Florida Senate. The name of the college was subsequently changed to Edison Community College (ECC) in 1972.

In 2001, the District Board of Trustees approved the request to change Edison Community College to Edison College (EC). The following year Edison College began the process of petitioning for four year upper-division degree programs. Soon after, Edison College's application was approved and the Bachelor of Applied Science in Public Safety management was launched in the summer of 2006. Four years later Edison College became Edison State College (ESC), along with eight other community colleges, in order to better provide Baccalaureate degree opportunities for achievement of its students.

Presently, Edison State College is a member of the Florida State College System, which consists of 28 public institutions. The College employs 503 full-time and 663 part-time faculty and staff members (c. fall 2007) to provide instructional and support services to approximately 16,000 students who participate in Edison courses and programs each year.

Edison has four official sites with permanent facilities in the counties of Lee, Collier, Charlotte, and Hendry. The College utilizes, through mutual agreement, public and private institutional facilities (e.g., schools, government buildings, hospitals, clinics) in the five-county area. They are used to supplement on-site programs with practical field experience, provide regular courses off-site utilizing remote teaching or on-line classes, and support programs in distance learning, dual enrollment, continuing education and special needs (e.g., theatrical arts).

**Site Notes for: LEE CAMPUS**

LEE CAMPUS (Site No. 1): The College moved to its permanent location, 8099 College Parkway, Ft. Myers, Florida, in June 1965. It was initially situated on an 80-acre campus between College Parkway on the north and Cypress Lake Drive to the south. The original master plan for the college required the construction of eleven buildings with the last, the Barbara B. Mann Performing Arts Hall, being completed in 1986.

In 1980, the University of South Florida (USF) established a campus at Ft. Myers, Florida. The site adjoined the ECC plant and was located west of the campus. Four major instructional/office buildings and a physical plant building were constructed on a 50 acre site. In 1982, an athletic-recreational center was added. Ownership of the property and facilities was transferred to Edison Community College in July 1994. The College shared the facilities with USF until the end of October 1997, when construction of Florida Gulf Coast University (the State's 10th university) was completed; staff, faculty and equipment were transferred, and the USF plant closed.

The Lee County Campus of Edison College presently has 27 buildings on a 142.5 acre site. The campus offers one, two and three-story instructional buildings housing classrooms and laboratories for a variety of programs including humanities, science, computer science, mathematics, business, health technologies and college preparatory classes. The plant also supports an administration building, library, bookstore, cafeteria, auditorium, physical plants with operational offices, and eLearning center. In addition, the Barbara B. Mann Performing Arts Hall, Rauschenberg Gallery, Rush Gallery and Medical Museum are located on site for the students and community. Within the last five years, construction has included a new allied health wing addition, classroom building addition and 48,000(+/-) gross square foot classroom building.

**Site Notes for: COLLIER CO. CAMPUS**

COLLIER CAMPUS (Site No. 4): The college expanded its service to Collier County when it opened in January 1991, a center in southeast Naples at 7007 Lely Cultural Parkway. The parkway has direct access to County Road 951, which is three miles south of Interstate 75.

In 2005, an additional 30 acres was acquired and increased the total property to 80 acres and supports 14 buildings. Also, in the same year the State Board of Education approved the request to change the site designation from a Center to a Campus, thus allowing for increased facilities and plants based on the increase of FTE's.

The campus houses offices for administration and faculty, an auditorium, student center, conference center, learning resource center, physical plant, café, bookstore, and instructional buildings with laboratories and classrooms.

Projects recently completed include a new student services building and Weiss Health Sciences Hall. Currently the college is remodeling the former student services building to increase student classroom, meeting and study spaces.

**Site Notes for: CHARLOTTE CO. CAMPUS**

CHARLOTTE CAMPUS (Sites 3 & 5): Service was extended to Charlotte County in 1974. In January 1994, a two-building complex was leased as a special purpose center at 2511 Vasco Street in Punta Gorda, Florida (Site No. 3). The center was closed and programs and services moved to Site No. 5 in March 1997 when a permanent, full-services center was constructed at 26300 Airport Road in Punta Gorda.

On August 13, 2004, Hurricane Charley, a category 4 storm, caused catastrophic wind damage in Charlotte County, Florida displacing thousands of people as well as damaging homes and businesses including the Charlotte County Campus. After one year the storm was still showing its mark; however increased enrollment showed the necessary FTE counts to request a site designation from a Center to a Campus. The State Board of Education approved the request in August 2005.

The Charlotte County Campus has a site of 171 acres and supports 15 buildings. The campus houses facilities for administration, faculty offices, general classrooms, science, observatory, allied health, learning resources, student activities, physical plant, and maintenance.

**Site Notes for: HENDRY / GLADES SPC**

HENDRY / GLADES SPECIAL PURPOSE CENTER (Site 6): A permanent center for the residents of Hendry and Glades counties opened to students August 2009. The existing 19(+/-) acres site was purchased with two existing facilities totaling 28,542 gross square feet.

Prior to students first walking through the center's doors, remodeling of the facilities and site took place and included: the addition of data systems, telecommunications upgrades, painting and mechanical (HVAC), lighting, electric, and plumbing repairs and site modifications.

Recently, the center was remodeling to address science needs of the students by appropriating space to create a new 998(+/-) square foot science lab.

## RECOMMENDATIONS FOR EDUCATIONAL PLANTS

### EDISON STATE COLLEGE

**Survey : 1 Version : 1**

**Date : 6/11/2013 1:01:16 PM**

The educational plant survey is a systematic study of present educational and ancillary plants and the determination of future needs. The survey is not directly concerned with the instructional program but the relationship of educational plants to the instructional program is such that judgments regarding the instructional program are necessarily a part of an educational plant survey.

The construction, remodeling, and renovation of educational facilities is a major undertaking. The educational plant survey aids in formulating plans for housing the educational activities of students and staff of the community college for the next several years and the survey considers the local comprehensive plan in its forecast strategies. This plan represents a careful study of all available data regarding the status of educational and ancillary facilities in relation to capital outlay full-time equivalency (COFTE) student membership and the projected changes in COFTE student membership. The intent of this educational plant survey is to ensure the thoughtful, orderly development of a program for providing educational and ancillary plants to house the educational and academic support activities of the college.

The recommendations in this educational plant survey furnish the foundation for a five-year plan for educational plants adopted by the Board of Trustees in accordance with §1013.31, Florida Statutes. Similarly, the recommendations serve as the basis for the proposed building program with projects listed in the order of priority submitted pursuant to State Requirements for Educational Facilities §2.1(5).

Educational plant survey cost estimates are determined based on cost factors that are 31 months (January, the midway point of the five-year survey period) from the official beginning of the survey period, which is July 1 of the first full year of the survey. The cost per square foot for new construction, remodeling, and renovation is based on actual statewide average construction cost data with a cost index increase applied to use the mid-point of the survey costs for planning purposes. The cost estimate process applies uniformly to all surveys in all colleges so that consistent planning can be made on a statewide basis.

Cost estimates for educational plant survey recommendations provide a general idea of anticipated costs and should not be interpreted as accurate estimates for particular projects. When educational plant survey recommendations become specific projects, professionals who can estimate the actual project costs based on current construction information must prepare the estimates.

The following table is a summary of square foot rates and cost estimates for the community college educational plant survey recommendations:

Recommendation Category	Cost per Square Foot	Estimated Cost
New Construction	282.00	30,715,440.00
Remodeling	141.00	25,096,308.00
Renovation	94.00	80,008,288.00
Site Recommendations		39,185,000.00
Estimated Total Survey Recommendation Cost		175,005,036.00

In addition, the educational plant survey provides six standard recommendations for college-wide application, as needed. The standard survey recommendations address general categories of physical plant needs that are likely to occur over time. No cost estimates are included for the standard survey recommendations.
