

Opening an OvidSP Session

- Open the OvidSP URL with a browser or
- Follow a link on a web page or
- Use **Athens** or **Shibboleth** access

Select Resources to Search

- Select one resource by clicking on its name or
- Select several (or a **Group**) by clicking the checkboxes and **Select Resources** button
- To add external resources, include **Universal Search** sources (when available)
- To select different resources after starting your search, choose **Resources**, then in **Selected Resources**, choose **Ovid Resources** (or **Universal Search**) and **Select Resource(s)** and **Run Search** if required

Select Resource(s) to search:

My Resource Groups New Group

- Top Medical
 - EBM Reviews - ACP Journal Club 1991 to January 2010
 - EBM Reviews - Cochrane Central Register of Controlled Trials 1st Quarter 2010
 - EBM Reviews - Cochrane Database of Systematic Reviews 4th Quarter 2009

- Complete Reference

OPEN ACCESS RESULTS
Effectiveness of oxcarbazepine in symptomatic treatment of painful diabetic

OvidOpenAccess

- Search Open Access and subscribed content together
- Select **View all Open Access results** to view separately from subscribed content
- Select to close/open the OvidOpenAccess widget
- Open Access results are only available when using **Basic Search**

Enter keyword or phrase (* or \$ for truncation)

Keyword Author Title Journal

Search

Limits (Expand) Include Multimedia Include Related Terms

To search Open Access content on Ovid, go to [Basic Search](#)

Advanced Search

- Enter each individual subject word/phrase and click **Search**. **Mapping** will suggest terms from the database vocabulary (when available)
- Use **Keyword** (.mp.) containing Title, Abstract, Subject Headings (or Full Text) and other fields for a general subject search
- Searching **Author**, **Title** (of article), **Journal Name** or **Book Name** is also possible
- Use the checkboxes to combine the required subjects with the **AND** or **OR** operator buttons, or enter the operator **NOT**
- Multimedia results are available when using **Basic Search** or performing a keyword or field search in **Advanced Search**

Search History (4 searches) (Click to close)					View Saved
<input type="checkbox"/>	#	Searches	Results	Search Type	Actions
<input type="checkbox"/>	1	exp Adaptation, Psychological/	80243	Advanced	Display More >>
<input type="checkbox"/>	2	exp Depression/	54274	Advanced	Display More >>

Multi-Field Search

- Enter multiple terms and search in all or specific fields
- Combine using the **AND**, **OR** or **NOT** operators
- Use truncation or wildcard symbols to search singular or plural forms or spelling variations
- Click + **Add New Row** to add additional search boxes

Note: *Author searches are automatically truncated with *.*

	<input type="text" value="anorexi?"/>	All Fields
OR	<input type="text" value="bullemi*"/>	All Fields
AND	<input type="text" value="drug treat* or drug therap*"/>	All Fields
NOT	<input type="text" value="fluoxetine"/>	All Fields

[+ Add New Row](#) [Search](#)

Operators

Four operators are available to combine terms:

- **OR** gathers together lists of terms, e.g. Australia or New Zealand; 2 or 3
- **AND** finds where terms occur together, e.g. rock and roll; 1 and adult.sh.; 4 and 5
- **NOT** removes a term, e.g. spiders not insects; 1 not 2
- **adjX** locates terms which are within X words of each other in either direction, in a sentence or in a paragraph

Note: *adjX does not cross paragraphs. Phrase searches search words in the order entered (except for stopwords/reserved words).*

Truncation and Wildcards

Truncation or wildcard symbols find variations in spelling in **Advanced Search** or **Multi-Field Search** modes:

- Use * or \$ or : at the end of a word, or part of a word, to retrieve unlimited suffix variations e.g. computer* for computer, computers, etc. Add a number to restrict to a certain number of characters e.g. computer*7
- Use # inside or at the end of a word to replace exactly one character e.g. wom#n
- Use ? inside or at the end of a word to replace zero or one character e.g. robot? or flavo?r

Note: *Operators, Truncation, and Wildcard symbols are not valid in Basic Search mode*

Limits

Limits restrict search results to selected criteria. **Limits** are specific to the database(s) selected. Commonly used limits are available from the **Main Search Page**. All limits are made available by clicking the **Additional Limits** button.

[Search](#)

Search Tools (when available)

Searches the database vocabulary. Enter a subject word or phrase, select a dropdown tool and click **Search**. Tools vary by database. Examples include:

- **Map Term:** suggests subject terms within the database tree or thesaurus
- **Tree or Thesaurus:** locates a subject within the database tree or thesaurus structure
- **Permuted Index:** allows you to enter a single term and view an index of multi-word terms that include the word as well as associated “see” and “see related” terms

Other search tools offer insights into subheadings, subjects, subject classifications or publications, depending on the database(s) selected.

Search Fields

Searches (or browses) within resource fields. Enter a word or phrase, select one or more fields, and choose to **Search** or **Display Indexes >** (browse) entries (when available). **Clear Selected** cancels choices. When displaying the indexes, a two-letter field label appears next to each term. Select all relevant entries and click **Search for Selected Terms**.

Search History

Searches, results, and search types are listed in the **Search History** window. Combine search statements by clicking checkboxes and selecting the operators **AND** or **OR** in **Advanced Search** mode, or by entering the search statement numbers and operator in the search box (e.g. 1 not 2). Delete searches using the checkboxes and **Remove Selected** button. Refine results or add to your search by using **Results Tools** on the left of the search results display.

Search Results

To view the results from the most recent search, scroll down the page or select **Display** to view any search result.

- Results appear in a **Citation** display, including Author, Title and Source information
- The **View** menu changes display to **Title** or **Abstract**
- If the citation includes an abstract, a **View Abstract** link is offered to view the abstract inline
- Books@Ovid results include a book passage
- Journals@Ovid results include **PDF** (when available)

- To view only multimedia search results, select **See more multimedia results** or click **Multimedia** in the **View By** section of the **Results Tools** pane
- Utilize **Results Tools** on the left, to apply filter options including relevance, subject, duration, media type, etc.
- To the right of each title, **Abstract Reference**, **Complete Reference**, **Ovid Full Text** (or **Full Text**) links may be available
- Links to **Document Delivery**, **External Link Resolvers**, and **Library Catalogs** may be added by the administrator
- To find related records, select the **Find Similar** or **Find Citing Articles** links (when available)

Ovid Universal Search Results (when available)

Universal Search results are next to the OvidSP search results. View results in either the **combined tab** (selected sources together) or **multiple tab** (separate sources) views. Options include sorting or deduplication, linking to source results, annotating citations, and linking to full text (when available).

The screenshot shows the Ovid Universal Search Results interface. At the top, there are tabs for 'OvidSP', 'Library of Congress (50 Results)', 'PubMed (50 Results)', and 'WebMD (8 Results)', along with a 'Combine Tabs' button. Below the tabs is the 'Results Tools' pane, which includes 'Options', 'Select All', 'Print', 'Email', 'Export', 'Add to My Projects', and 'Keep Selected'. The main search results area displays two results:

- 1. Pain Management of Terminally Ill Cancer Patients Not Receiving Hospice Care in Taiwan.** by Tzuh Tang S. Cancer Nurs. 2010 Mar 30. [Epub ahead of print]. PubMed / PubMed. Source URL and Complete Reference links are available.
- 2. Pain Patients."->"We Need to Get You Focus...** by Macneela P; Gibbons A; McGuire B; Murphy A. Qual Health Res. 2010 Mar 24. [Epub ahead of print]. PubMed / PubMed. Source URL and Complete Reference links are available.

On the left side, there is a 'Search Information' pane showing search terms used: collaborative care for pain patients, care, cares, childcare, collaboration, collaborations, collaborative, dolor, pain, painful, pains.

Print, Email, Export, and My Projects

Output choices are at the top of each results page: **Print**, **Email**, **Export**, or **Add to My Projects**. Select results then an output icon. Select individual citations using the checkboxes, or **Select All** at the top of the page.

Print:

- **Select Fields to Display:** Choose preset fields lists or select a custom list
- **Select Citation Style:** Use **Ovid Labelled Citation** for print, email, or export to reference management software or choose another style (APA, MLA, Chicago etc.)
- **Include:** Choose **Search History** to include the search strategy, **Annotations** to include notes, **URLs to Ovid full text** to link into OvidSP results or full text

Email:

- Insert **From** and **To** addresses, separating multiple addresses with a comma; add **Subject** title and **Message** (if required)

Export:

- Use **Microsoft Word** format for word processing
- Use **PDF** as a document exchange format
- Use **.txt** for text file output
- Use **Excel Sheet** for xlsx format output
- Use **Citavi/EndNote®/ProCite®/Reference Manager®** for local reference management
- Use **RefWorks** for online reference management
- Use **RIS** format for Reference Manager and EndNote Web
- Use **BRS Tagged**, **Reprint/Medlars** for older RM formats
- **Delimited** or **XML** are database import formats

Add materials to **My Projects** by dragging them into the **My Projects** area in **Results Tools**, or by clicking the **Add to My Projects** button (and following prompts). Items can be added from other sites using the **Ovid Toolbar**.

My Projects is a structured storage area containing projects and folders where you may store text, results, citations, full text, video, graphics etc. **My Projects** offers the same output options as results (**Print**, **Email**, **Export**) and the option to **Remove** (delete) saved items.

Further Information: Consult the **Database Field Guide** (follow **Selected Resources** link) for more information about resources. **Help** about the software is available on most pages, opening to information about the most recent page, and allowing chapter browsing on the left.

Links to training resources and language options are available at the bottom of each page.

For more information about Ovid products see <http://www.ovid.com>; for training materials and documentation see <http://resourcecenter.ovidsp.com>
