Impact of Change of Course Proposal	
Will this change of course proposal impact other courses, programs, departments, or budgets?	Yes
If the answer to the question above is "yes", list the impact on other courses, programs, or budgets?	This course will meet 4 hours instead of 3 and faculty will be compensated for the teaching time. The change is in line with existing practice in other institutions and that makes it easy for the course to transfer.
Have you discussed this proposal with anyone (from other departments, programs, or institutions) regarding the impact? Were any agreements made? Provide detail information below.	
No. This change has no impact on programs of other departments.	

Section III, Justification for proposal

Provide justification (below) for each change on this proposed curriculum action.
According to Carnegie definition, a C course has a minimum of 2 contact hours of in-class lab work for each credit of the lab. This is a C course and contains enough standard lab work per week to supplement 2 hours of lecture. Therefore, a minim of 2 lecture hours and 2 lab hours are required to cover the course content satisfactorily, and to justify the C designation.
