

Curriculum Committee Agenda

October 6, 2017

1:30 PM – 3:30 PM

Lee AA-177, Charlotte E-105,
Collier G-109, Hendry/Glades A-106

CHAIR	Dr. Mary Myers
VICE CHAIR	Professor Arenthia Herren

COMMITTEE BUSINESS	Dropbox Upload Instructions
TYPE OF PROPOSAL	Information Item
PRESENTER	Dr. Mary Myers
Summary of proposed changes:	
Jeffrey Peterman submitted directions for uploading proposals to the Dropbox. This has been shared with the Faculty Senate President and the committee. (Sent via email. Can be found on the Document Manager.)	

ACTION ITEM	1
TYPE OF PROPOSAL	Change of Course
PRESENTER	Dr. Peggy Romeo
BSC1005 – General Biology	Effective Date: Spring, 2018
Summary of proposed changes:	
The School of Pure and Applied Sciences proposes changes to the catalog description, topic outline and learning outcomes. This course was changed from a “C” course to a separate lecture and lab course last year. Dr. Stewart approved the term start date exception. (The changes to the Learning Outcomes are for information purposes only.)	

ACTION ITEM	2
TYPE OF PROPOSAL	Change of Course
PRESENTER	Dr. Peggy Romeo
BSC1011 – Biological Science II	Effective Date: Fall, 2018
Summary of proposed changes:	
The School of Pure and Applied Sciences proposes changes to the topic outline and learning outcomes. (The changes to the Learning Outcomes are for information purposes only.)	

ACTION ITEM	3
TYPE OF PROPOSAL	Discontinuation of Program, Certificate, or Course
PRESENTER	Dr. Peggy Romeo
BSC1050 – Environmental Biology: Our Global Environment Effective Date: Fall, 2018	
Summary of proposed changes:	
The School of Pure and Applied Sciences proposes discontinuation of BSC1050. The content overlaps significantly with the core General Education course EVR1001C – Environmental Science, and has therefore become redundant. It is an elective in the AS Science and Engineering Technology program. However, there are sufficient electives remaining so that this does not impact the program.	

ACTION ITEM	4
TYPE OF PROPOSAL	Change of Course
PRESENTER	Dr. Peggy Romeo
CHM2045 – General Chemistry I Effective Date: Fall, 2018	
Summary of proposed changes:	
The School of Pure and Applied Sciences proposes changes to the course description, topic outline and learning outcomes. The purpose is to achieve a more even distribution of the amount of material covered in CHM2045 and CHM2046. (The changes to the Learning Outcomes are for information purposes only.)	

ACTION ITEM	5
TYPE OF PROPOSAL	Change of Course
PRESENTER	Dr. Peggy Romeo
CHM2046 – General Chemistry II Effective Date: Fall, 2018	
Summary of proposed changes:	
The School of Pure and Applied Sciences proposes changes to the course description, topic outline and learning outcomes. The purpose is to achieve a more even distribution of the amount of material covered in CHM2045 and CHM2046. (The changes to the Learning Outcomes are for information purposes only.)
