4. Summary and Adjourn / Dr. Worch

## Main Points for Agenda Items

1. Old Business – Recruitment in the works, Advisory Boards were merged into one and then separated again 18 months ago. Crime Scene and Public Safety Administration were together originally with 35 members. Now they are separated and the PSA Advisory Board has 23 members
2. Alissa Shupperd introduced, and new plans laid for reaching new recruits and current officer. New marketing will be distributed and connections made between recruiter and those in charge of scheduling events
3. Coursework organization, if there are enough students to implement cohorts this is preferred.
4. FSW presence weak in comparison to other schools and is being worked on, along with making the process easier for new students and “outdoing” the other schools.
5. Possibility of dispersing a survey to ask what would work best.
6. Understanding the relationships between needing a quick program but needing proper accreditation and meeting public standards for what programs are being reimbursed by police departments.
7. Discussion and plans for connecting with High School Academies.
8. Potential demand for a program that combines computer technology and crime scene courses
9. Adjournment and email distribution to get ball rolling
