

FSWC Collegiate HS Faculty Meeting 9/11/18

2-2:45pm/K103

1. Emergency Code Red Drill Feedback/Binders:
When the Code Red was announced, students and teachers were able to lock down very quickly. We did have some students giggling during the process. Teachers are instructed tell the students that this needs to be taken serious. Several students had ideas or improving the drill also. On this day we had a substitute teacher and the Social Worker in the building. It all went very well.
Teachers were instructed to grab their binders if possible, and updating rosters on a regular basis. The Google form worked well. We were able to collect the data from teachers and know everyone was safe. We will continue to use the Google form for the next drill.
We will try to have 2 people announce when we are all clear.
