  - Please think about what electives and clubs you would like to offer next year. What students would find beneficial.
7. CCPS addition of 30 minutes to the school day for 2019-20 – we need to discuss the implications for us and decide quickly if we want to utilize funds from the referendum for this as well. Would like to bring to SAC for their January meeting with our staff's recommendation.
  - There was a discussion regarding the additional 30 minute school day being implemented by CCPS starting next school year. CCPS teachers will be compensated for 30 additional minutes. The county would like all secondary schools to be uniform in how they use the funds secured from the tax referendum. Much discussion took place about if we should be allocated a specific amount and are able to choose how we spend it. It was not presented to Principal Wier in this manner but she is going to look further into the topic and follow up with faculty.
