Course description	
<p>Students will be introduced to African American literature in the United States from the 18th century to the present. The course will cover major literary movements, history, themes, and cultural productions as they relate to the Black American experience. Upon successful completion of the course, students will understand the evolution of African American literature from the 18th century to the present as well as its significant movements, contexts, concepts, and figures. This course is writing Intensive and counts as a Humanities General Education course.</p> <p>(I) This counts as an international or diversity focused class.</p>	

General topic outline

- Definitions of African American literature as both part of and separate from other literary traditions
- Representations of black American identity in African American literature
- Major literary and intellectual movements of African American literature
- Structures and conventions of African American literature
- Key themes of African American literature
- Critical interpretation and analysis of works by black American authors with attention to larger social, historical, and political contexts
- Planning, researching, organizing, and writing critical papers on literary topics in MLA style

Learning Outcomes: For information purposes only.

IV. Course Competencies, Learning Outcomes and Objectives

A. General Education Competencies and Course Outcomes

1. Integral *General Education Competency or competencies:*

General Education Competency: **Analyze** and create individual and collaborative works of art, literature, and performance. Acquire cultural literacy and foster creative thinking by examining the visual, artistic, literary, and inventive endeavors of African Americans from the 18th century to the present. Understand histories of black thought and self-expression, and in doing so, nurture personal creativity, and strengthen human relationships. Engage with the material culture, creative productions, and traditions of African Americans to examine human values and life in the U.S. Understand how African American art, literature, music, and other cultural productions have contributed to and produced the society in which we live.

Course Outcomes or Objectives Supporting the General Education Competency Selected:

1. Students will analyze a variety of authors and genres and chart the trajectory of African American literature.
2. Students will evaluate the historical, legal, political, and intellectual contexts relevant to African American literature as well as the influence of race on literary and cultural productions.
3. Students will identify how African American authors integrate and/or signify on elements of the vernacular tradition, including spirituals, blues, jazz, and/or folktales.
4. Students will examine fictional representations of the black experience and issues such as heritage, identity, class, feminism, sexuality, and/or the Black Diaspora.
5. Students will connect literary texts or themes with contemporary life, pop culture, and/or politics
6. Students will interpret African American literature as both counter to and enmeshed within larger traditions of literature.
7. Students will demonstrate their understanding of the characteristics and techniques of African American literature.

2. Supplemental *General Education Competency or competencies:*

Communicate clearly in a variety of modes and media. Acquire communication and rhetorical literacy in order to speak and write effectively about African American literature and its relevant histories. Develop tools to express one's knowledge, read critically, analyze thoroughly, and synthesize information, skills necessary to furthering one's own educational and occupational goals. Understand, evaluate, and discuss African American literature and culture in a variety of contexts. Critically examine literary texts, interpret and integrate information, and apply rhetorical and communication literacies to the real world.

Course Outcomes or Objectives Supporting the General Education Competency Selected:

8. Students will develop the skills necessary to critically analyze and discuss African American literature.
9. Students will demonstrate the ability to evaluate, interpret, and compose arguments about African American literary works; the compositions will be substantial in length and increase in rhetorical complexity over the course of the semester.
10. Students must demonstrate continuing mastery of correct grammar, usage, and diction.
11. Students must analyze information within the style of academic prose writing, and, in general, develop their ability to join a scholarly conversation.

Do you expect to offer this course three times or less (experimental)?	No

Impact of Course Proposal	
Will this new course proposal impact other courses, programs, departments, or budgets?	Yes
If the answer to the question above is "yes", list the impact on other courses, programs, or budgets?	This class will be writing Intensive and count as an additional Humanities General Education course, so it will impact humanities and social science courses. However, only a limited number of these classes will be offered each

	<p>academic year (no more than one per campus). Furthermore, the class may have the result of increasing enrollments in these other classes as it draws new students into our universe.</p>
<p>Have you discussed this proposal with anyone (from other departments, programs, or institutions) regarding the impact? Were any agreements made? Provide detail information below.</p> <p>Yes, we have spoken to the Humanities Department and the History Department. They are glad that we are offering this class because it fills a real need at the college.</p>	

Section III, Justification for proposal

Provide justification (below) for this proposed curriculum action.

This class is offered widely at other state colleges, and FSW is one of the few schools where it isn't available. Not having this class leaves a significant gap in our curriculum, especially given our status as an open-enrollment institution that provides access to higher education for underserved communities. As noted above, the Humanities Department and History Department are also behind this class. It will fill a real need at the college.

Section IV, Justification for proposal

Provide justification (below) for each change on this proposed curriculum action.

Prerequisite Change: Students in the Human Services Generalist CCC or the Youth Development Services CCC can elect to take HUS 1001 or SOW 2031. This change will list both courses as prerequisites on Banner and in the 2020-2021 catalog.

Major Restriction: Currently, only "AS Social and Human Services or Major in CCC Addiction Services" is listed as a major restriction in the 2019-2020 catalog. Last year, the Curriculum Committee approved adding major restrictions for the Human Services Generalist CCC or the Youth Development Services CCC effective Fall 2019. This change was made on Banner. Unfortunately, the catalog markup was omitted from the course proposal and the catalog was not updated. This proposal updates the previously approved change in the 2020-2021 catalog.

HUS 2302 - Basic Counseling Skills

3 credits

Prerequisites: HUS 1001 or SOW 2031 with a grade of "C" or better; Major in AS Social and Human Services or Major in CCC Addiction Services or Major in CCC Human Services Generalist or Major in CCC Youth Development Services

****HUS 1001 is required for Major in AS Social and Human Services or Major in CCC Addiction Services.***

In this course, students will learn counseling theory, interviewing, data gathering, observing, diagnostic assessment, treatment planning, and intervention skills for use in the counseling and human services profession. Case management and personal ethics will be included. This course will include dealing with clients of all ages and ethnicities. The human services professional works using a team approach to providing care. The role and interactions in the team will also be studied.

Many students pursuing the FSW AA degree have expressed an interest in pursuing a BSW after graduation. Effective Fall 2019 the FGCU Social Work Program began requiring all applicants to successfully complete SOW 2031 prior to admission to their program. Changing the requirements so that students can take HUS 1001 or SOW 2031 will give students the opportunity to explore this career before making a long-term commitment. For those students who decide to pursue a BSW, this change creates a Pathway for students to transition seamlessly into a BSW degree. This change involves no additional faculty, personnel or resources.

Human Services Generalist, CCC

Mission

The mission of the Social and Human Services Program is to provide the highest quality education to future and current Human Service Professionals with a learning environment that supports the development of culturally competent, compassionate, and accountable professionals. The Program prepares graduates who are dedicated to the autonomy, dignity, and diversity of the people they serve.

Program Highlights

The Human Services Generalist College Credit Certificate (CCC) is a shorter program of study that consists of select courses from the Social and Human Services Associate in Science Program. The CCC is designed to prepare students for work with diverse populations in a variety of human services environments, to provide a foundation for AA students who wish to pursue a higher degree in a related field, or to provide supplemental training for persons previously or currently employed in the field of human services.

After successful completion of the Human Services Generalist CCC, the student will be able to perform the following:

1. Understand the importance of legal, ethical, and professional responsibilities.
2. Understand the risk factors that lead to human services intervention.
3. Examine the theories utilized in human services.
4. Display an understanding of treatment knowledge.
5. Demonstrate competencies of practice using various interventions.

Many courses in the Program are available fully online (no classroom attendance) or offered in a blended format (occasional classroom attendance). The Social and Human Services Program is an open enrollment program; no additional application is required. Students who enter the Human Services Generalist, CCC Program in the Fall semester can complete the program in 3 semesters. All courses must be completed with a grade of "C" or better.

Purpose

This certificate program is part of the Social and Human Services AS degree program (1451159901).

A College Credit Certificate consists of a program of instruction of less than sixty (60) credits of college-level courses, which is part of an AS or AAS degree program and prepares students for entry into employment (Rule 6A-14.030, F.A.C.).

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of aspects of the Human Services career cluster.

The College Credit Certificate program is designed to be the first educational step to a professional career in Human Services as Human Service Assistants (SOC 21-1093), or other positions that are a part of the social services delivery. It will provide credit course work for those employed in human service occupations as well as those who seek to enter the profession without experience.

The College Credit Certificate will focus on broad introductory principles of human behavior specific to the good practices and techniques in human service. Course work will enable student's to employ effective communications and interpersonal skills, understand the legal and ethical responsibilities of human services and demonstrate computer literacy.

Students will demonstrate knowledge of the human services system, specifically how it affects practice and policy as well as the roles of human service workers in various settings. Students must be able to demonstrate knowledge of human development from birth to senescence, understand adaptive and maladaptive patterns of behavior and have an understanding of various treatment modalities and therapeutic interventions.

Students must develop effective interpersonal communication with clients, co-workers and supervisors. They must be able to demonstrate assessment, evaluation, problem solving and referral and crisis intervention skills as well as a working knowledge of legal and ethical issues related to human services.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Standards

After successfully completing this program, the student will be able to perform the following:

- 01.0 **PROGRAM PLANNING AND EVALUATION:** Exhibit the ability to: (A) assess the needs of clients and programs; (B) develop interventions that promote optimal functioning, growth, and goal attainment; and (C) evaluate and make necessary adjustments as appropriate.
- 02.0 Understand the risk factors that lead to human services intervention.
- 03.0 Examine the theories utilized in human services.
- 04.0 Display an understanding of treatment knowledge.
- 05.0 Demonstrate competencies of practice using various interventions.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Career and Technical Student Organization (CTSO)

HOSA (Future Health Professionals) is the intercurricular career and technical student organization(s) providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Postsecondary students with disabilities must self-identify, present documentation, request accommodations if needed, and develop a plan with their counselor and/or instructors. Accommodations received in postsecondary education may differ from those received in secondary education. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

Purpose

This certificate program is part of the Social and Human Services AS degree program (1451159901).

A College Credit Certificate consists of a program of instruction of less than sixty (60) credits of college-level courses, which is part of an AS or AAS degree program and prepares students for entry into employment (Rule 6A-14.030, F.A.C.).

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Human Services career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of aspects of the Human Services career cluster.

The content includes but is not limited to knowledge of the human services system, roles of human service workers in various settings specifically youth work environments. Students must be able to demonstrate a knowledge of human development as it relates to specific age groups; develop a professional awareness of youth work; understand and implement a youth development approach in various environments; develop a capacity to design and implement programs consistent with the needs of youth in relation to available community resources.

This College Credit Certificate program is designed to be the first educational step to a professional career in Human Services with emphasis in Youth Services or other positions that are a part of the social services delivery SOC Code 21-1093 (Social and Human Service Assistants). It will provide credit course work for those employed in youth service occupations as well as those who seek to enter the profession without experience.

The College Credit Certificate will focus on broad introductory principles of human services specific to the good practices and techniques of a youth development approach. Course work will prepare students to function as youth workers in community-based, residential, group home and other youth work environments.

Additional Information relevant to this Career and Technical Education (CTE) program is provided at the end of this document.

Standards

After successfully completing this program, the student will be able to perform the following:

- 01.0 **PROGRAM PLANNING AND EVALUATION:** Exhibit the ability to: (A) assess the needs of clients and programs; (B) develop interventions that promote optimal functioning, growth, and goal attainment; and (C) evaluate and make necessary adjustments as appropriate.
- 02.0 Display an understanding of a youth development approach in community-based, residential, group home and other youth worker environments.
- 03.0 Examine the theories, principles and stages of typical human growth and development and the challenges of each stage.
- 04.0 Demonstrate a general knowledge and understanding of community characteristics.
- 05.0 Demonstrate a general knowledge and understanding of family dynamics.
- 06.0 Understand how current social issues influence children/youth.
- 07.0 Demonstrate an understanding of principles and best practices of a developmentally appropriate youth program.
- 08.0 Display an understanding of the prevention, recognition, and reporting of child abuse and neglect.

Section III, Justification for proposal

Include state frameworks, accrediting or professional organization recommendations or requirements, workforce data, and/or crosswalks.

Provide justification (below) for each change on this proposed curriculum action.
<p>Many students pursuing the FSW AA degree have expressed an interest in pursuing a BSW after graduation. Effective Fall 2019 the FGCU Social Work Program began requiring all applicants to successfully complete SOW 2031 prior to admission to their program. Changing the requirements so that students can take HUS 1001 or SOW 2031 will give students the opportunity to explore this career before making a long-term commitment. For those students who decide to pursue a BSW, this change creates a Pathway for students to transition seamlessly into a BSW degree. This change involves no additional faculty, personnel or resources.</p>

Youth Development Services, CCC

Mission

The mission of the Social and Human Services Program is to provide the highest quality education to future and current Human Service Professionals with a learning environment that supports the development of culturally competent, compassionate, and accountable professionals. The Program prepares graduates who are dedicated to the autonomy, dignity, and diversity of the people they serve.

Program Highlights

The Human Services Youth Development Services College Credit Certificate (CCC) is a shorter program of study that consists of select courses from the Social and Human Services Associate in Science Program. The CCC is designed to prepare students with the knowledge and skills for working in child, family and youth service occupations in community, school, residential and group environments. It provides a foundation for AA students who wish to pursue a higher degree in a related field or supplemental training for persons previously or currently employed in the field of human services.

After successful completion of the Youth Development Services CCC, the student will be able to perform the following:

1. Understand the importance of legal, ethical, and professional responsibilities.
2. Display an understanding of a youth development approach in community-based, residential, group home and other youth worker environments.
3. Examine the theories, principles and stages of typical human growth and development and the challenges of each stage.
4. Demonstrate a general knowledge and understanding of community characteristics.
5. Demonstrate a general knowledge and understanding of family dynamics.
6. Understand how current social issues influence children/youth.
7. Demonstrate an understanding of principles and best practices of a developmentally appropriate youth program.

Many courses in the Program are available fully online (no classroom attendance) or offered in a blended format (occasional classroom attendance). The Social and Human Services Program is an open enrollment program; no additional application is required. Students who enter the Youth Development Services, CCC Program in the Fall semester can complete the program in 3 semesters. All courses must be completed with a grade of "C" or better.

Additional Information

Laboratory Activities

Laboratory investigations that include scientific inquiry, research, measurement, problem solving, emerging technologies, tools and equipment, as well as, experimental, quality, and safety procedures are an integral part of this career and technical program/course. Laboratory investigations benefit all students by developing an understanding of the complexity and ambiguity of empirical work, as well as the skills required to manage, operate, calibrate and troubleshoot equipment/tools used to make observations. Students understand measurement error; and have the skills to aggregate, interpret, and present the resulting data. Equipment and supplies should be provided to enhance hands-on experiences for students.

Career and Technical Student Organization (CTSO)

HOSA (Future Health Professionals) is the intercurricular career and technical student organization(s) providing leadership training and reinforcing specific career and technical skills. Career and Technical Student Organizations provide activities for students as an integral part of the instruction offered.

Accommodations

Federal and state legislation requires the provision of accommodations for students with disabilities to meet individual needs and ensure equal access. Postsecondary students with disabilities must self-identify, present documentation, request accommodations if needed, and develop a plan with their counselor and/or instructors. Accommodations received in postsecondary education may differ from those received in secondary education. Accommodations change the way the student is instructed. Students with disabilities may need accommodations in such areas as instructional methods and materials, assignments and assessments, time demands and schedules, learning environment, assistive technology and special communication systems. Documentation of the accommodations requested and provided should be maintained in a confidential file.

Section IV, Justification for proposal

<p>Provide justification (below) for each change on this proposed curriculum action.</p>
<p>In 2019-20 the NUR 4827C course was made co-requisite with NUR 4955 Nursing Capstone course in order to provide a mechanism for students and faculty to assess achievement of end of program student learning outcomes (EPSLO) as required by ACEN (national nursing program accreditation). The leadership course provides students with opportunity to demonstrate achievement of learning outcomes that reflect the practice of the registered nurse at the baccalaureate degree level as a leader in patient care and nursing practice ground in research and evidence. The NUR 4955 capstone course was designed as the assessment of EPSLOs. In implementing the co-requisite courses, there have been issues that have presented barriers to students that hindered the instructional process and the assessment of learning outcomes. With the integration of these two course, students will have a streamlined and more meaningful learning experience from registration for the course to completion of assignments that demonstrate the intended outcomes. Faculty also utilized written and verbal comments from students in the current model to guide this change.</p> <p>NOTE: Completing this course as proposed will meet graduation audit requirements for NUR 4827C and NUR 4955 from previous catalogs.</p>

Course description (provide below)	
This is an intermediate course that builds on the animation knowledge that students have gained from ART2600C. In this class students on make projects that advance their animation skills. These projects could include: 2D animation, Cel animation, Stop Motion, Motion Design, Compositing, VFX, Motion Capture, or 3D animation. Students will expand their technical understanding through software explorations in order to create compelling animated stories. They will be required to create written and visual planning documents like scripts, storyboards, and concept art. Students will be challenged to push their creativity and make expressive and conceptually challenging work.	

General topic outline (type in outline below)

Goals and Objectives for the course

By the end of the course students will:

- Identify and implement the fundamentals of Animation
- Utilize planning documents to like scripts, storyboards, and concept art in order to tell compelling and creative stories.
- Demonstrate technical understanding of both 2D and 3D animation.
- Implement visual effects in works with live video.
- Create works for new technologies such as mobile or virtual reality.
- Compare animation throughout history and how it relates to their creative work.

Learning Outcomes: For information purposes only.

IV. Course Competencies, Learning Outcomes and Objectives

A. General Education Competencies and Course Outcomes

1. Integral General Education Competency or competencies: ANALYZE

1. Understand and implement the fundamentals of animation in creative projects.
2. Plan Animation through storyboards, scripts, and concept art.
3. Explore the history, theory, technical, and aesthetic issues of animation through analysis of other artists utilizing animation in their work.
4. Realize ways of investigating new technologies and how to implement their animation projects.
5. Be able to clearly communicate story and narrative structure through the creation of new animated works.

2. Supplemental General Education Competency or competencies:

B. In accordance with Florida Statute 1007.25 concerning the state's general education core course requirements, this course meets the general education competencies for

Course description (provide below)	
<p>This is a course that explores the history and practice of using artificial intelligence (AI) in creative work. Throughout this class students will be exposed to methods and algorithms that are utilized in computing and creative fields. They will demonstrate a knowledge of AI in relation to many creative practices including writing, image making, game design, and music. The students will look at how to write code that is inspired by nature. They will also implement AI theories in relation to game design which includes decision trees and path planning. Critical and creative thinking will be encouraged through class projects and interactions.</p>	

General topic outline (type in outline below)

Goals and Objectives for the course

By the end of the course students will:

- Implement AI techniques for use in games.
- Utilize a neural network for creative purposes.
- Understand the theories and techniques that are utilized in AI.
- Author and modify code in multiple coding languages.
- Draw connections between code and the natural world.
- Analyze the work of scientists and artists to influence their projects.
- Demonstrate creative uses of AI in image and music making.

Learning Outcomes: For information purposes only.

IV. Course Competencies, Learning Outcomes and Objectives

A. General Education Competencies and Course Outcomes

1. Integral *General Education Competency or competencies*: THINK

1. Utilize theories of Artificial Intelligence for creative purposes. This includes theories from the artistic and scientific communities.
2. Generate code to produce creative works of Artificial Intelligence.
3. Understand how to look at the natural world and translate that into code.
4. Master Mac and PC operating systems and be able to navigate from application to application.
5. Master several coding languages and techniques, including game design, neural networks, and creative coding.
6. Master manipulation of existing software for creative purposes through utilizing audio, video, animation and game industry standard software.
7. Demonstrate the creation of interactive projects utilizing code and industry standard software.
8. Create visual digitally designed solutions that effectively fulfill project goals.
9. Demonstrate various output processes and the use/role of professional service bureaus in the creation/presentation of finished work.

Course description (provide below)	
This course explores the artistic and technological components that make games enjoyable, playable, challenging, and marketable. Students will implement theories of play and explore how those theories not only shape our games, but our world. Students will make several games in this course, which will utilize industry standard game creation software. All will follow the principles of well-designed games, which consists of a clearly defined goal, set of game criteria, and rules for gameplay. Students will also be introduced to game marketplaces and how they might be utilized to sell their games.

Goals and Objectives for the course

By the end of the course students will:

- Evaluate theories of play and game design for physical and virtual games.
- Undertake the process of game design from start to finish.
- Create well designed levels for games.
- Evaluate and modify code in multiple coding languages.
- Apply theories of play and games to real world situations.
- Relate the history of video games to the making of new games.
- Create games that are enjoyable, playable, and marketable.

Course description (provide below)	
This course provides hands-on experience in audiovisual technology. Students will learn to implement safe industry-standard techniques in the production of live audiovisual performances. Students will work as a team to produce live performances in the theater, audio, and video-based industries. The course will focus on the setup, operation, and troubleshooting of industry-standard technology. Students will also learn to record, edit and present media from live performances.	

<p>General topic outline (type in outline below)</p> <p>Goals and Objectives for the course</p> <p>By the end of the course students will:</p>

- Develop audio and video for use in performance.
- Record live audio and video from performances.
- Demonstrate proper safety techniques in the audiovisual industry.
- Work as a team to produce various technological performance productions.
- Analyze technical manuals in order to troubleshoot technological issues.
- Apply skills quickly and effectively to solve problems for live performance situations.
