This looks ok to me, if Dr. Teed is ok with it.

Thanks, Jeffrey!

Good Morning.

Because of the campus shut down, I have not been able to get the signed proposals from the proposals from the office of accountability. I got Aprils this morning, and still waiting on March. So, because of the deadline of June 1 for the Catalog I have decided to take care of March (and April) this morning.

Long story short, for CLP 2140 when I submitted this, this is what happened: They changed our new course CLP 2140, to 2142. The comments below show: that LB thinks CLP 2140 is like PSY 2146, so DM thinks we should rename it CLP 2146, and then JPO, says NO-upper division #, so it will be...2142. So we have a proposal for CLP 2140 that the state turned into CLP 2142. How should we handle this one? It is for the Fall 2020. I can create the CLP 2142 with attaching the comments to the proposal and then maybe next round add it as an informational item about the change?
