**Section III, Justification for proposal**

**Include state frameworks, accrediting or professional organization recommendations or requirements, workforce data, and/or crosswalks.**

<p><b>Provide justification (below) for each change on this proposed curriculum action.</b></p>
<p>We have several students who have successfully completed all of the required coursework for our program including a 250-hour residency; however, they have been unable to fulfill the Math requirement despite numerous attempts to do so. College level math is not a requirement for students to be successful in the field of Social and Human Services and is not required by the Florida Department of Education or SACS at this time. We are proposing giving students the option of choosing Math or Natural Sciences to fulfill their General Education requirements in the FSW Social and Human Services Program. The Natural Science requirement would be reduced from 4 credits with a lab to 3 credits. This credit change would be offset by increasing HUS 2905 from 2 credits to 3 credits.</p>
