Section III, Justification for proposal

Include state frameworks, accrediting or professional organization recommendations or requirements, workforce data, and/or crosswalks.

Provide justification (below) for each change on this proposed curriculum action.
One justification for changing the course listed above is so that it better reflects the AS degree and the courses offered in that program. We want to make sure that students are able to receive their Certificate in Digital Media/Multimedia Production on their way to receiving an AS degree. This program changes removes the course that is not part of the AS degree and replaces it with a course that are in the AS. In reviewing the statewide framework for this Certificate, it was also brought to our attention that we could better meet the standards outlined in the framework with different classes.

Our choice to remove ART 1201C - Basic Design was due to the fact that the course was not digital media specific. This course can be taught utilizing digital media, but that choice is up to the instructor. We have chosen to replace this course with ART 2616C - Digital Art and Animation because it is digital specific and it better meets standard 3.0 in the statewide framework which states, "Design and generate video and/or animation in a multimedia project." |
