Subject: RE: DEP 2910

Dr McClinton/Joycellen,

Could you please make a formal request to create a DEP 2910 to Banner?

I can create it like the others, with 1-3 credits, repeatable 2 times(?) and with this course description (below).

Will this course be for 202030 (Summer)?

This course is intended to guide undergraduate students from all disciplines through the stages of writing a proposal for their research option project and subsequent thesis. Because the course will enroll students from different disciplines, they will also become acquainted with research topics, ways of framing arguments, and making points outside their fields of study, which will help them develop a more

interdisciplinary perspective.

Bonnie-Excuse the 'go around', the request for a new 2910 course needs to come from/approved by Academics.

-

Respectfully,

Jeffrey D. Peterman

Subject: DEP 2910

Jeffrey,

Please add DEP 2910, Undergraduate Research for Summer 2020. We need this course for the Summer 2020 International teaching series. I will then be able to build the course in Banner.

Let me know if you have any questions.

Regards,

Bonnie
