SECTION III: PROPOSED COURSE CHANGES

Summary of Proposed Changes	
Changes to pre-requisites, co-requisites, and load hours	
Justification for Proposal	
Pre-requisites changed to mirror other level 4 courses. Co-requisite change is necessary because we no longer offer NUR 2810. NOTE: Although corequisites NUR 2810, NUR 2260, and NUR 2260L do not appear in the 2020-2021 Catalog, they are coded somewhere that is blocking registration for this course, so overrides must be processed for each student to register. This has been an issue for several years. We hope the problem will be pinpointed and solved by including it in this proposal. Load hours changed to reflect the faculty load required in a clinical course.	
NOTE: Complete the next section by indicating proposed course changes. Skip fields that are not applicable to your curriculum action.	
Change of School or Department	N/A

Provide justification for the proposed changes to pre-requisite(s).	Pre-req changes consistent with other courses
Change Course Corequisites	From: NUR 2810, NUR 2260, NUR 2260L To: None NOTE: Coreqs are not listed in the Catalog but are coded somewhere in that blocks Course Registration, such that students must receive overrides to register for this course.

Provide justification for the proposed changes to co-requisite(s).	To correct prior inconsistencies on the course corequisites for which NUR 2810, NUR 2260, and NUR 2260L have never been removed. These courses are no longer offered, were part of previous ASN Curriculum, and were creating the need to grant overrides for our current students.
