### **SECTION III: NEW COURSE INFORMATION**

**NOTE: All items must be completed.**

<b>Justification for New Course</b>	
<p>We are essentially requesting a course number change for Abnormal Psychology, from CLP 2142 to CLP 2140 based on a thorough search of FL SCNS and related discussions. According to FL SCNS data, the majority of FL Colleges and Universities offering this course at the 2xxx level with PSY 2012 as a prerequisite use the course number CLP 2140. Changing to this number will facilitate course transfer for students who go on to Bachelor's degree programs.</p> <p>According to FSW Curricular process, changing the prefix and/or number of a course requires a New Course Proposal and Discontinuation of the prior equivalent course. A Course Discontinuation proposal for CLP 2142 is also being submitted for the Feb. 5, 2021 meeting.</p>	
<b>Course Prerequisite(s) and Minimum Grade(s) required (if higher than a D)</b>	PSY 2012 Minimum grade: C
<b>Justification for Prerequisite(s):</b> Students must have a solid foundation from PSY 2012 Introduction to Psychology to take this course. CLP 2140 Abnormal Psychology will expand on foundational psychological concepts covered in PSY 2012 such as research methodology, neurobiology, stress, developmental psychology, motivation and emotion, personality, and mental illness and its treatment.	
<b>Course Corequisite(s)</b>	N/A
<b>Justification for Corequisite(s):</b> N/A	
<b>Should this course be listed as a corequisite on a paired course?</b> (Ex. CHM 2032 and CHM 2032L are "paired corequisites.")	Not Applicable
<b>Number of Course Credits or Clock Hours</b>	3.0
<b>Number of Contact Hours (faculty load)</b>	3.0
Provide explanation if Contact Hours differ from Course Credits/Clock Hours. - N/A	
<b>Select Grade Mode</b>	Standard Grading (A, B, C, D, F)
<b>Credit Type</b>	College Credit
<b>Is the course repeatable? *</b>  <i>*Not the same as Multiple Attempts or Grade Forgiveness</i>  A repeatable course may be taken more than once for additional credits. (Ex: MUT 2641, a 3-credit course, may be repeated 1 time for a maximum of 6 credits).	No

<b>Should any Degree or Major Restriction codes be listed on this course?</b> (i.e., “This course may only be taken by students who have been admitted to X Program”)	No
<b>Designate the course as General Education?</b>	Yes
<b>Designate the course as Writing Intensive?</b>	No
<b>Designate the course as International or Diversity Focus?</b>	No
<b>Do you expect to offer this course three times or less (experimental)?</b>	No
<b>Course Description:</b> This course will provide an in-depth review of a broad spectrum of psychopathological disorders as defined by the DSM-5 (2013). CLP 2140 examines theoretical perspectives and current research related to abnormal behavior with a primary emphasis on identifying the symptomatology, etiology, and effective treatments of various mental disorders.
