

Dental Hygiene Department Faculty and Curriculum Meeting
August 13, 2020 at 9:00 -1:00 p.m. in A-142

	Present	Absent	Excused
Faculty			
Karen Molumby P-1	√		
Carol Chapman P-2	√		
Jami Ware P-3	√		
Dr. Magdaline Britto P-4	√		
Clori Atkins P-5	√		
Brenda Schwing P-6	√		
Dr. Deborah Lux P-7	√		
Yessenia Iglesias P-8	√		
Nancy Schuette P-9	√		

I. Return to Campus under COVID-19 Guidelines

a. COVID-19 AY 2020-2021

Registration – The class of 2021 will be registering for the following fall courses:

- DEH 2804L, Dental Hygiene III Clinic
- DEH 2806L, Dental Hygiene IV Clinic
- DEH 2702L, Community Dental Health Lab

b. Clinic Schedule – The Clinic schedule was sent to the Class of 2021. The clinic schedule is as follows:

- Monday and Wednesday will be half days due to the Class of 2022 in A-142 for Dental Anatomy and Dental Materials.
- Tuesday and Thursdays = ½ day clinic and ½ day in the classroom doing simulation case studies.
- Fridays off – Clinic and A-142 will be used to present DEH 1002L course topics.

c. August 17-21

The Class of 2021 needs to complete 48-hours of clinic for DEH 1802L, Dental Hygiene II due to the College closing its campus on March 16, 2020. The students need to do their preparation for the local anesthesia course that is online prior to the 18-hours on campus. The remaining time will be devoted to doing the outstanding competencies associated with the oral prostheses, motor polishing competency, and dental charting.

d. Community Dental Health Lab – Course Projects will need to be assigned according to the clinic schedule of groups. Since the college is committed to the CDC guidelines that include wearing a mask on campus and to practice social distancing of six-feet.

e. Group projects can be completed in classroom once all students are completed with simulation case study exercises.

f. Clinic and Simulation Competencies

Clinic Competencies – The following competencies are to be completed on live patients verses a simulation exercise:

- Scale
- Root planing
- Medicament placement
- Local anesthesia
- IOC

g. Simulation Competencies for DEH 3, 4, 5 Competencies

h. Upload clinical competency documents in DH-V

Nutritional Counseling (DH-3) video – 3 – day diary

- i. The students are to select a patient and do a video nutritional counseling explaining what changes they could include in their diet based on the 3-day diary.

Student Simulation Assignments – The morning Session will be Carol and Clori and the afternoon session will be Yessenia and Jami. A Simulation Fake Chart has been created for each student to be used on Tuesday and Thursdays.

Tackle Box: students will not bring tackle boxes onto the floor. They will store their items in a designated drawer in their assigned operatory. All supplies such as gloves, BP cuff, masks are to be stored there.

Local Anesthesia - The students will be given instructions on how to administer local anesthesia according to the Florida State Statutes. The student will complete the online portion of the course prior to August 17-19. An invitation to the LA Colloquium course was sent. The lead instructor to grade students quizzes and answer discussion questions. The students will be divided into two groups over three days to complete the laboratory requirement of 18 hours

The other two day will be devoted to being introduced to the IOC, cavitrion and prophjet videos prior to class. Ultrasonic scaling will be used with typodonts with fake calculus and plaque along with an HVE. Test out on IOC, cavitrion and prophjet competency. Other items covered will be:

1. COVID-19 Make- up Course
 - Dental Hygiene II competencies:
 - Scale, Care of Oral Prostheses, and LA)
 - Radiographs
 - Capstone- everyone
2. OSHA/HIPAA annual training.
3. Program COVID-19 Protocol
4. Chart Reviews – spring, summer and fall.
5. Periodontal Analysis Form cases from spring 2020.
6. Case Study patient selection criteria.
7. EMS protocol review (Anaphylaxis, Epileptic seizure, Asthma, Angina)
8. Dental Hygiene III and IV competency requirement review.

Central Sterilization and Room Assignments

- No screening assistant/central sterilization. Students will be assigned to be responsible for the week to set-up and break down central sterilization area during clinical rotations.
- Stocking of all rooms will be each student's responsibility.
- Room assignments
 - Window view plus operatory K (NO operatory E).
 - Left handed clinicians will use operatory D.

Locker room –

- Select new locker. Record locker number on form located in kitchen.
 - 9 student lockers on the bathroom side
 - 9 on the other side
- Purses and/or personal belongings should not be brought on campus to minimize infection control issues.

Laundry facilities – Closed Container for clothes in locker room. Clothes can be washed onsite.

a.

j. Community Health Lab and Dental Hygiene V

- Community Health Lab ---Projects will be primarily done as a video presentation.
 - The students will meet with the Oral Cancer Coordinator to review concepts so the information can be put into a video for clients at the Community Education Center to view since we are limited to go into agencies.
- k. **Nitrous Oxide** – The nitrous activity for expanded functions will be scheduled in early January to ensure this task can be completed before graduation. On one Tuesday morning and afternoon in the month of either October/November will be utilized to do the Nitrous Oxide administration?
- l. **Clinic days** – Students will be assigned staggered check-in times at 7:15 and 7:30. The patients will be responsible to pay either by cash or credit card payment. Checks will no longer be accepted.
- i. **Huddles**
1. Students will meet with their professor to discuss activities to be completed for their patient. Due to COVID, we will not be gathering for a huddle.
- ii. **FSW Course Delivery Modalities** – Were discussed in great length amongst the faculty and will be conveyed to students prior to the start of the semester.

<p>Traditional</p> 	<p>A course where faculty and students meet on an FSW campus in an assigned room according to a schedule. Instruction occurs together in the classroom.</p> <p>What technology is Required for Students? Access to Canvas.</p>
<p>FSW Blended</p> 	<p>Blended courses are courses that mix online instruction with required, scheduled on-campus meetings. Some instruction will occur together in the classroom, and some instruction will be delivered online through Canvas and/or Zoom.</p> <p>What technology is Required for Students?</p> <ul style="list-style-type: none"> • Laptop or desktop computer with an up-to-date operating system • Stable high-speed internet • External webcam with microphone
<p>FSW Online</p> 	<p>What are Online Courses?</p> <p>Online courses are courses where instruction occurs via Canvas or an equivalent learning platform. Faculty and students may never meet face-to-face. Instruction is asynchronous and no classroom is assigned.</p> <p>FSW Online courses may be assessed a Distance Learning fee per section 1009.24 (17), Florida Statutes (F.S.).</p> <p>What technology is Required for Students?</p> <ul style="list-style-type: none"> • Laptop or desktop computer with an up-to-date operating system • Stable high-speed internet • External webcam with microphone

<p>FSW Live Online</p> 	<p>What are Live Online Courses? Live Online courses are a special version of an online course where instruction occurs via Zoom during a regularly scheduled time. Instruction happens together in a virtual classroom and never meets on campus.</p> <p>FSW Online courses may be assessed a Distance Learning fee per section 1009.24 (17), Florida Statutes (F.S.). What technology is Required for Students?</p> <ul style="list-style-type: none"> • Laptop or desktop computer with an up-to-date operating system • Stable high-speed internet • External webcam with microphone

OSHA Training –

- OSHA/HIPAA/COVID-19 Training.
- Located in Canvas and identified as the “Dental Colloquium” course.
- Students signature is required.

Gloves, Face Shield, Gowns:

1. Vinyl gloves will be provided for EF
2. Face shield, KN95 and Level 1 mask
 - a. Storage of face shields for students.
 - b. Mask must cover the entire nose.
 - c. Not to be worn under chin.
 - d. Safety glasses are worn under face shield.
3. Disposable gowns
 - a. Program and student supply
4. Disinfectant Wipes
 - a. Clinic - Outside in hallway next to water fountain.
 - b. Classroom – inside the classroom.

Faculty Office and Front office Faculty office doors are always to be closed. Front office door is always closed. Telephone and patient schedule will be placed on ledge outside the front office.

Mobile Carts - Faculty will be using mobile carts in clinic and classroom to grade clinical competencies. Faculty are assigned to the radiology rooms, small DM lab, Panoramic room and dark room to wait for notification for student checks.

Eaglesoft Messenger - Communication during clinical session with the dentists, hygienists, and front desk. Patient communication when late.

Procedure Code Sheet – This form is now an electronic copy on the S-drive.

Patient Education Room -The following items are located in the Pt Ed Room.

- Paper bags for TB and Toothpaste and other adjuncts.
- Calculus detection form
- Yessenia’s form
- Mouth wash
- Shoe and hair bonnets are in tubs

Treatment Operatory - Patient safety glasses are left in the treatment room.

- Hand mirror will be in each treatment room. IOC is used for all adult patients >18. Storage case is placed in back-up battery cabinet in the room until the end of the day.
- IOC - 6 photographs for NP and 1 minimum for Recall
- Patient return – calculus detection worksheet in plastic sleeve.
- Appointment cards – place one card on counter outside of room at the start of the clinical session.
- Disposable bib clips.
- No sign-up sheets.

**Leaving Early –
Classroom**

- Student may leave after all documentation is completed for the assigned case-study.
- Case study is not accessible to student after one attempt

Clinic

- Students may leave after patient is dismissed and treatment room as well as central sterilization is cleaned.
- Must be checked-out by faculty (hygienist and/or dentist)
 - Requires student to be defogged by faculty member only in Operatory B.

Locker room

Transport of contaminated uniforms to the student's home should be placed in the thank you bags found in the locker rooms. Tubs in bathroom are used to put contaminated uniforms to be washed. Students will determine wash schedule.

Front Office

Questionnaire utilization

- Confirmation phone call

Front door locked from 8-9:00, 11:30 -12:30, and at 4:00.

Signage to request patients to wait in hallway.

KN95 plus Level 2 mask to greet patients.

- Temperature taken prior to entry into reception area.
- First group of five patients will enter clinic at 7:30.
- Second group admitted at 7:45.
- NO FOOD OR DRINK PERMITTED
 - Computerized health history
 - HIPAA
 - Patient rights if new patient
 - COVID questions
 - Patient email
 - Patient payment
 - Ask patient to use restroom in hallway prior to being called back

Dental Clinic Supervisor -Eaglesoft messenger

- Review health history and convey message to student to bring patient back
- Grade radiographs
- Supervise local anesthesia administration
- Verification of high blood pressure readings or other health conditions that preclude treatment.
- Email radiographs to patient
- Expose Case study photograph
- Verbalize need for evaluation of dental needs. No chairside examination.
 - Oral lesions that need to be evaluated for referral will require dentist verification.

Faculty

Check with assigned students prior to bringing patient back to verify procedures to be completed for the patient.

Verification of procedures for healthy patients will include:

1. Assessment
2. Scale & toothbrush polish
 - Note history and walkout is completed prior to final check

Verification of procedures for advanced periodontal cases with moderate to heavy calculus will include:

3. Assessment
4. Scale verification by quadrant, sextant and/or arch
5. Toothbrush polish
 - Note history and walkout is completed prior to final check

Student & Patient Interaction

1. Blood pressure clearance (Same protocol)
 1. Notify instructor through messenger.
2. Record Temperature along with BP-, P-, R-, T-
3. NO sign-up sheets. Communication with instructor will be through Eaglesoft messenger.
4. Notes and walkout must be completed prior to the last check.
5. All patients need to be off the clinic floor by 11:30 and 4:30.

The next meeting is scheduled for December 11, 2020.

Respectfully submitted,

Karen Molumby
