NUR

NUR

Course Number* 1022

Course Title* Fundamentals of Nursing-AS-AS

Course Description* Students are introduced to the practice of the associate degree nurse and the role as provider and manager of care, and member of the discipline of nursing. Professional nursing practice includes nursing history and theory, professional nursing standards, concept of caring, and the importance of evidence based nursing practices. Using the nursing process, students use critical thinking skills to assess human needs and the actual or potential problems that interfere with the client's ability to meet basic needs. Students learn the nurse's role in the delivery of safe, effective, and quality nursing care for clients with alterations in basic physiologic and psychosocial needs during the adult lifespan.

Course Number* 2244C

Course Title* Nursing Concepts: Families in Crisis-Complex Health Problems

Course Description* This course is designed to further develop the concepts within FSW nursing philosophy: Health, People and nursing as a profession. Emphasis is placed on the concepts of health-wellness-illness, collaboration, managing care, safety, advocacy, legal issues, policy, healthcare systems, ethics, accountability, evidence-based practice, and complex communication concepts. This course also provides clinical experiences for students to explore and solidify the concepts covered in Nursing Concepts: Families in Crisis-Complex Health Problems. Students will progress from directly supervised clinical experiences to a more independent and indirectly supervised clinical nurse residency experience. Assignments in this course will immerse students into the patient/client care environment, preparing them for the transition from student nurse to professional registered nurse. Upon completion the students will be able to provide safe and effective care for patients/clients and families in a community context.
