| <ol style="list-style-type: none"> ASN graduates B term admission after NCLEX ASN enrolled students taking RN-to-BSN courses ASN student email about B term admission and starting RN-to-BSN Program after NCLEX | B. Holbrook | <ol style="list-style-type: none"> Faculty willing to revisit topic - may be willing to allow B term admission for students to take NUR 3805 Professional Roles and NUR 3870 Informatics as the first classes the newly admitted ASN graduates who have passed NCLEX would take; need to have 15 RN-to-BSN students (FSW policy) during B term to hold the NUR 3805 Professional Roles course. Faculty remain concerned that ASN graduates need to concentrate on passing NCLEX after ASN graduation and not be distracted by RN-to-BSN course deadlines until ASN pass rates are improved. Faculty feel that in order to consider allowing ASN students take RN-to-BSN classes they would need an official policy in place at FSW (like an official dual track) -Faculty would like to know that a dual track (ASN and RN-to-BSN) would be allowed by the FL Dept. of Education for State College RN-to- | <p>Will discuss further at Fall meeting</p> <p>5/31/22</p> | <p>Faculty and Staff</p> <p>B. Holbrook</p> |

| | | <p>BSN programs with specific qualifying criteria. B. Holbrook will follow up.</p> <p>-Felt that the ASN students that took RN-to-BSN courses during the pilot period needed a lot more attention from the Faculty; students were not used to the independence of RN-to-BSN courses required and expected more guidance from the course faculty</p> <p>-would like course sections for just ASN students who are taking RN-to-BSN courses with fewer than 29 students as the max number due to the extra attention ASN students need.</p> <p>3) Shared with Faculty student email regarding taking BSN courses at UCF while enrolled in FSW ASN Program</p> | | |

| Student Learning Outcomes identified in course assignments | B. Holbrook | B. Holbrook passed out crosswalk of 8 EOP SLO for RN-to-BSN Program, AACN Essentials 2008, QSEN to identify which assignments / projects / exam measure SLO. Faculty need to also identify if the concept is introductory, reinforcing or mastering. Faculty decided to work on this at home and have a follow-up meeting together on <u>_/_/22</u> | | Faculty |
| Meeting Adjourned: 16:30 | | | | |
