Review Questions:			
1) "GE Natural Sciences with Laboratory" was changed from 4 credits to 3 credits. Was this done to match the state requirement? If not, please provide justification for changes, including removal of recommendation to take CHM 2025 and 2025L.			
a) The state does not limit AS programs to 15 credit hours of GE. Does the dept wish to maintain the 4-credit Natural Science with Lab with CHM course recommendations in the GE section?			
b) Does the dept wish to keep the recommendation of CHM 2025 and 2025L, either in GE or Electives section?			
c) GE requirements decrease from 16 to 15, and Electives increase from 14 to 15 to compensate. This may be changed back if the 4-credit option is reinstated.
