Via this email, I support the admissions overrides for spring 2022 and summer 2022.

If you are just doing a strike out of that sentence with the current curriculum proposal, that will work!

Subject: Fwd: Overrides for RN to BSN students

Dr DeLuca,

Can you please approve this so June and Sheila can move forward.

Thank you so much,

Patty

Subject: Overrides for RN to BSN students

Hello Patty,

When I met with Sheila Seelau this morning to discuss the RN to BSN change of program to remove the wording that "all gen eds must be completed prior to admission", Sheila suggested that we add this change to our current Change of Program proposal that we are submitting for the Fall 2022 semester and provide students admission overrides for the Spring 22 and Summer 22 semesters. She did not see the need for an expedited proposal. It sounds like we will need a memo from Dr. DeLuca stating her support and approval in order for the admissions/registrar's office to allow us to make those overrides.

Thank you!

June
