Subject: RE: AS Degree in Science and Engineering Technology

Good morning,

While I think EVERY student should take MAN 2021 😊, I have no concerns regarding the proposed changes and approve the inclusion of my name “on the proposal as faculty whom we have discussed the proposed changes”. Please let me know if you need anything else or if you have any additional questions or concerns.

Thanks,
Jenny

(PS – As a quick note, I am not sure if it is relevant, but ECO 2023 is not SoBT.)

Subject: AS Degree in Science and Engineering Technology

Jennifer and Mary

As part of the review to make sure that the Science and Engineering Technology AS degree meets the new state guidelines, SPAS has reviewed the degree and are proposing some changes that, at least on paper, impact SoBT. The impacts on SoBT courses is expected to be minimal since few students have graduated from the degree. Most students enrolled are pursuing higher science and engineering degrees; the rationales for the actions affecting SoBT are given below.

Do you have any concerns that you wish to discuss? Would you be OK for us to put your names on the proposal as faculty whom we have discussed the proposed changes?

Remove this requirement from Core classes “CGS 1000 - Computer Literacy 3 credits (or CLEP CGS 1077-3 transfer credits) or CGS 1100 - Computer Applications for Business 3 credits or Any computer course with a CGS, CIS, COP, or CTS course - 3 credits	While computer science skills are essential for the modern technician, this class has been a major reason why students do not graduate with the degree. Students do obtain basic computer skills through ENC1101 and science lab classes, but still have the option of taking the CGS classes as electives.
---	---

Add these classes to Elective “CGS 1000 - Computer Literacy 3 credits or CGS 1100 - Computer Applications for Business 3 credits	
---	--

	The impact on SoBT enrollments is likely to be very small
<p>Remove the Scientific Business Option: 15 Credit Hours</p> <hr/> <ul style="list-style-type: none"> • ACG 2011 - Financial Accounting II 3 credits or • ACG 2021 - Financial Accounting 3 credits • ACG 2071 - Managerial Accounting 3 credits • ECO 2023 - Principles of Microeconomics 3 credits • MAN 2021 - Management Principles 3 credits • MAR 2011 - Marketing 3 credits 	<p>There have been very few students graduating from the program overall, and anecdotally, none have opted for this option</p> <p>The impact on SoBT enrollments is likely to be very small</p>
Remove MAN 2582 - Principles of Project Management 3 credits from the elective list
