Summary	
<p>On 4/1/2022 Curriculum Committee approved changing course credits from 2 to 3 for CVT 2920 <i>Cardiovascular Technologist as a Professional</i>. Due to poor question formatting, there was confusion over whether contact hours (faculty load) should also change. Drs. Cobb and Such clarified the intent to change the (2) contact hours to match the new credits at 3. The Provost approved this change by email (attached) and the Assistant Registrar completed the modifications in Acalog (Banner and 2022-2023 catalog).</p> <p>The Course Change Proposal questions have also been modified for 2022-2023 to remove the source of confusion.</p>	

INFORMATION ITEM	2
Type of proposal	Change of Course
Presenter	Dr. Sheila Seelau
Memo: HIM 1800C, HIM 2814C Course Number Changes	Effective Date: Fall 2022
Summary	
<p>On 4/1/2022 Curriculum Committee approved Course Change Proposals for HIM 1802 and HIM 2813 that included adding a "C" to each course number to reflect their combined lecture/laboratory format. In subsequent discussions it was determined that Course Discontinuation and New Course Proposals should have been submitted to establish these new course numbers and archive the old. The Assistant Registrar submitted new course requests to SCNS, which approved different course numbers for the new courses to avoid confusion with the original numbers. Thus, HIM 1802 has been replaced with HIM 1800C Medical Office Simulation. HIM 2813 has been replaced with HIM 2814C Coding Office Simulation. The Provost approved these changes, and modifications have been completed in Banner. Email string appended.</p>
