I'll make one correction in the agenda - the program is Health Information Technology, AS.
I will attach this entire email stream as a Memo to the Summary Report for April so we'll have it in the records.

Sheila

Can you add this action onto the Agenda as an Information Item? HIM 2214- Health Data Management has been reactivated for one year to allow students to complete their program of study.

Subject: HIM 2214- Health Data Management

Dr. Bilsky

The prior Director of the Health Management Systems AS degree put in a curriculum proposal to end HIM 2214- Health Data Management during the 2021-22 academic year without realizing that students currently in the program needed this courses to complete their versions of the AS degree. The current director has identified 10 students who need this class and requests the HIM 2214 - Health Data Management be reactivated for the 2023-24 academic year so that the students can complete their studies.

I recommend that you approve this request.
