

Classification Description

Job Title: Application Development Specialist II

Pay Grade: TB040

Job Code: T018

FLSA Status: Exempt

Job Purpose

This position provides advanced application development and technical support to all areas of the College. Work includes gathering complex application development requirements from customers and translating those requirements into the programming needed to produce software applications and integrations. This position plays a key role in designing, developing and automating systems processes to support effective and efficient operations.

Responsibilities include, but are not limited to, advanced application development, programming, administration, primary support, maintenance, security and implementation for third-party applications that are integrated into the College's ERP system, as well as stand-alone applications. Systems include but are not limited to, Banner, Portal, Workflow, Xtender, Evisions, and Canvas.

General Responsibilities

Essential Functions

Maintains assigned applications for the College which includes new enhancement identification, development and implementation, troubleshooting system and operation problems, and administers coordination of solution with all users and Information Technology.

Identifies, develops and implements enhancements related to the third-party applications; coordinates solutions with end users and administers the applications.

Develops, programs, supports, and maintains the integrations with the College's ERP system (Banner).

Leads projects for Information Technology including revisions to the system integrations, Banner workflow, process improvements, and other data and information needs.

Designs and develops project plans facilitating implementation; identifies solutions to problems and facilitates resolutions.

Identifies, develops, and implements complex workflows for the College; troubleshoots user errors in Workflow; creates complex workflow components and models.

APPLICATION DEVELOPMENT SPECIALIST II

Assists in the development and testing of integration components to Banner/Oracle database.

Develops and maintains Enterprise Systems documentation.

With the functional administrators, establishes and maintains user profiles and security for the College's third-party applications. Grants and tracks access in support of, and at the direction of, the functional/IT area administrators.

Schedules, coordinates, reviews and applies product upgrades and enhancements and advises users of impact.

Designs, analyzes, codes, documents, and implements applications that support, enhance and integrate with the College-wide enterprise application suite.

Serves as the liaison between the functional area and Information Technology in developing new information initiatives and maintaining/troubleshooting current systems and applications.

Creates and maintains custom scripts for the College LMS. This includes developing, testing, documenting and maintaining scripts used in the College LMS.

Performs other duties as assigned.

These essential job functions are not to be construed as a complete statement of all duties performed; employees will be required to perform other job related duties as required. An employee with a disability is encouraged to contact the Human Resources Office to evaluate the job in greater detail in order to determine if she/he can perform the essential functions of this job with or without reasonable accommodation.
