

## BSN Graduate Survey Report – Summer 2022 Graduates

Author: Joseph F. van Gaalen, Ph.D., Asst. VP, IR, Assessment & Effectiveness

As part of the B.S. Nursing Program Review at Florida SouthWestern State College, a graduate survey survey is used and distributed via email to all students who graduated six months earlier. For Summer 2022 graduates, in total, 25 emails were sent to graduates eliciting completion of the survey. Of those, 3 (12%) completed all or part of the survey. The results of those who responded are detailed below.

### General Survey Questions

In response to the prompt “Please mark all that apply”, 2/3 (67%) responded that they are employed full time as an RN. See Figure 1 for details. Additionally, 1/3 (33%) responded that they are employed part time as an RN.

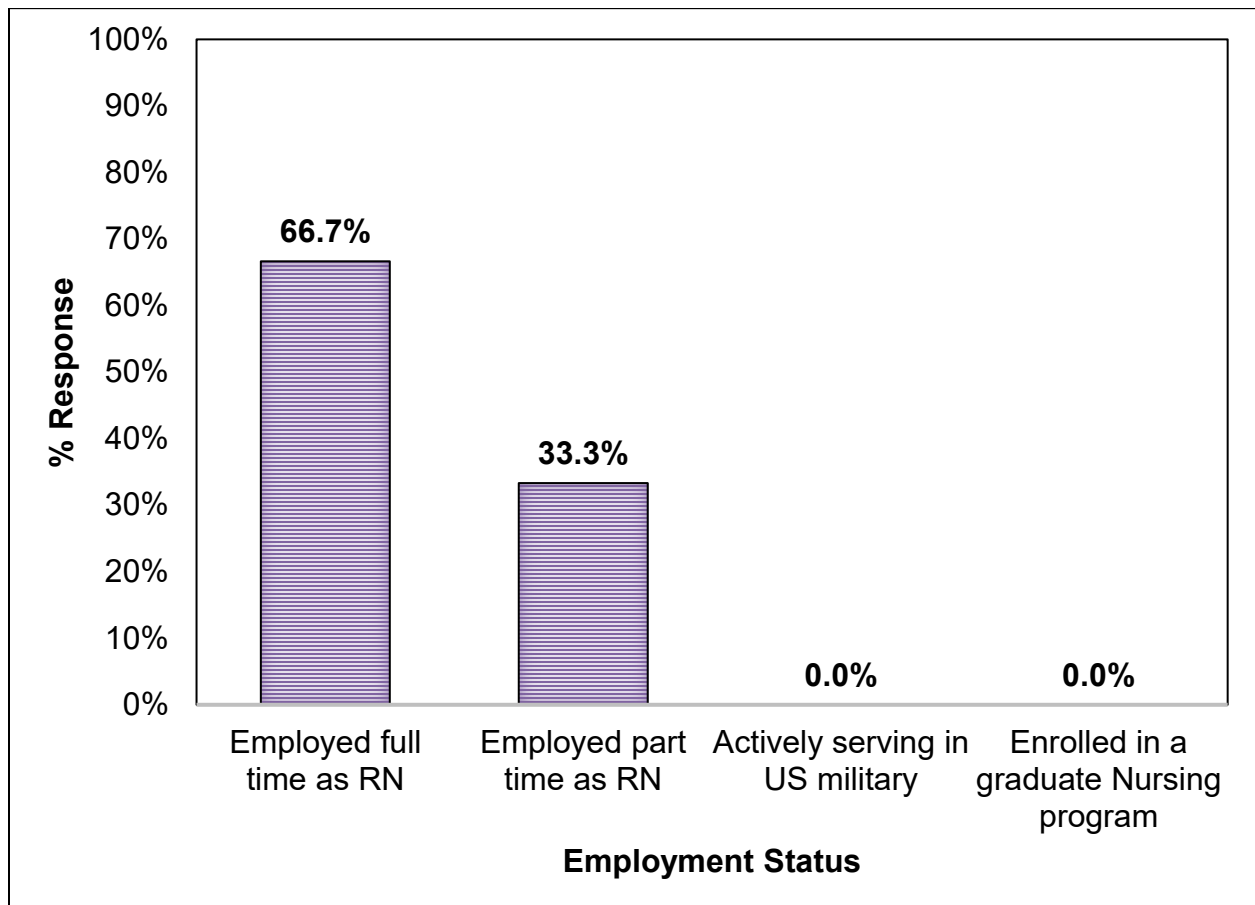

Figure 1. Response to survey prompt "Please mark all that apply." Survey respondents: 3.

In response to the prompt “Has your employment or role changed since earning a BSN degree?”, 100% responded that no, it had not changed. Results are shown in Figure 2, below.

In response to the prompt "Please rate your satisfaction with the education you received during your RN to BSN program.", approximately 67% responded either satisfied or very satisfied. Commentary provided by respondents is shown below.

✚ None.

In response to the prompt "Please rate how well you feel you met each of the 8 FSW RN to BSN end of program student learning outcomes" respondents overwhelmingly responded positively. Results are shown in the figure below. All outcomes exhibit respondents reporting satisfied or very satisfied at 100%.
