

Curriculum Committee Notes: 11/21/2025

Chair: Jeremy Pilarski

Link: <https://fsw.zoom.us/j/87190689405>

1pm–3pm

I. Information Items

1. Respiratory Care

A. This information item proposal adds program learning outcomes to the catalog for the AS and BS degree.

2. RAD Tech

A. This proposal adds the program learning outcomes to the catalog. Additionally, it updates prerequisites, co-requisites, learning outcomes, and topic outlines for all Radiologic Technology courses. The courses had not been updated in many years and needed to be realigned with program goals and current practices in the field. Additionally, changes to course numbers have been causing registration issues with the corequisites. This proposal cleans up these various issues

B. Approved, Deb E. and WVG

3. Fire Science

A. This proposal updates the program page to include program learning outcomes for the Fire Science Technology, AS degree. Developing program learning outcomes has given the department the opportunity to revisit existing curriculum and revise it for alignment.

II. Course Changes

1. DIG 2205C and MUS 2360

A. This proposal updates DIG 2205C to keep it from the five-year deletion list. Updates include the course learning outcomes, course assessment, and the prerequisite language. Additionally, this proposal makes MUS 2360 a combined course. Additional lab/practice time would further reinforce each e-book's lesson content through guided exercises that explore the topics covered in the preceding lecture. Enrollment in MUS2360 also includes two attempts for students to earn the industry-recognized AVID Pro Tools Specialist Certification. As a certified AVID instructor, Prof. Molloy is authorized to administer and proctor the AVID Pro Tools Specialist certification exam to students enrolled in the A.S. MP&T and CCC AT programs on-site at the FSW Lee Campus. The guided lesson lab exercises will also help increase student success rates on the certification exam.

B. Approved, Deb E. and WVG

III. Program Change

1. CGS 1101, AS

A. This proposal removes CJE 2602 Computerized Crime Scene Graphic Imaging and Documentation as a required course and replaces it with CGS 1100 Computer Applications for Business. It also removes or alters prerequisites for several program courses. The prerequisites are barriers for the students to graduate on

time. This change will help with higher graduation rates. Removal of CJE 2602 from the program is due to high maintenance costs for the Faro scanners. Law enforcement agencies are also going away from using the Faro scanners due to high maintenance expenses. The program can cover different/new sketching methods of crime scenes in the CJE 2670 Intro to Forensic course that are more affordable and just as effective. CGS 1100 will provide students with software and computer skills necessary for the successful completion of reports and documents in law enforcement contexts.

B. Approved, Bill S. and WVG

IV. New Course

1. CAI 1001

A. In an era where artificial intelligence is rapidly reshaping every industry, a foundational understanding of AI is no longer a niche technical skill but a critical component of a modern education. The proposed course, CAI 1001 Artificial Intelligence (AI) Thinking, is designed to meet this urgent need by equipping students with the essential literacy to navigate a world increasingly influenced by AI technologies. CAI1001 is strategically designed from a business perspective, ensuring its relevance and applicability across a wide range of career paths.

B. Approved, Alisa C. and WVB

V. Adjournment

A. DEB and Bill S., 1:30pm.

VI. Attendance

Curriculum Members: Faculty	DEPT.	Attendance	Proxy
Prof. Randy Evans	SoAHSS	P	
Prof. Dani Peterson	SoAHSS	P	
Prof. Alisa Callahan	SoBT	P	
Prof. William Van Glabek	SoBt	P	
Dr. Terri Ratini	SoED	P	
Prof. Debra Ebaugh	SoHP	P	
Dr. Esmael Samalizad	SoHP	P	
Prof. William Stoudt	SoPAS	P	
Prof. Arenthia Herren	Library	P	
Prof. Mark Massaro	SoAHS	P	
Prof. Evan Johnson	SoAHSS	P
